

## Synonymy of *Pieris stoetzneri* (Draeseke, 1924) (Lepidoptera, Pieridae)

Teruo TADOKORO\*

7-5-35 Kinuta, Setagaya-ku, Tokyo, 157-0073 Japan

**Key words** *Pieris shangrilla*, *Pieris shangrilla koidesia*, *Synchloe nigricans*, *Synchloe stoetzneri*, Taxonomy.

*Pieris shangrilla* Tadokoro, Shinkawa & Wang, 2013 from N.W. Yunnan, China is regarded as a junior subjective synonym (**syn. nov.**) of *Pieris stoetzneri* (Draeseke, 1924) from Lou-tse-kiang [Nu-jiang in N.W. Yunnan], China, on the basis of Vis and Cone (2012), Sugiyama (2015) and Sakai (2015). Furthermore, *Pieris davidis* ab. *nigricans* Verity, 1908 from Ta-chien-lu [Kangding in Sichuan], China, which was later elevated to species rank as *Synchloe nigricans* by Talbot (1932), is regarded as the female of *Synchloe stoetzneri* (Talbot, 1932). The nominal taxon *nigricans* is accepted as a valid subspecies (stat. nov.) of *Pieris stoetzneri* to represent its Sichuan population, and *Pieris shangrilla koidesia* Tadokoro, Wang & Bozano is confirmed to be placed as its junior subjective synonym (**syn. nov.**). In terms of generic rank, this butterfly is placed in the genus *Pieris* Schrank, 1801 in accordance with Tadokoro *et al.* (2013a).
